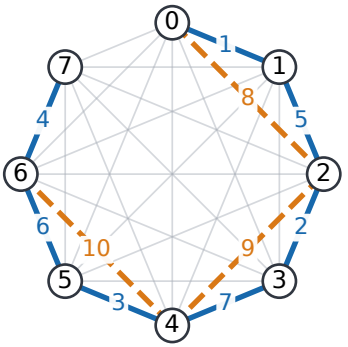
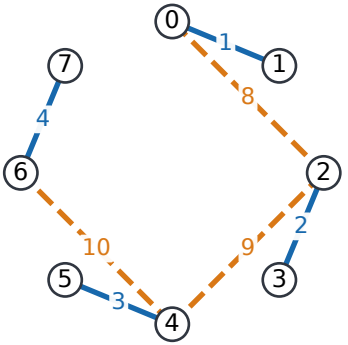
ILLUSTRATIVE WITNESS: a different tree can filter safely

All edges drawn; important labels are distinct weights; positions are illustrative.

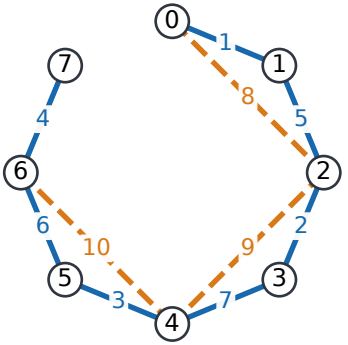
Parent: 28 edges; 3 Borůvka rounds



Chosen sample H=F: 7 edges; 3 non-MST chords; 2 rounds



F-light parent: 10 edges; 18 removed; 3 rounds



Edges of the original unique MST
Sampled forest chords outside that MST
Other high chords

Every original MST edge survives. Chosen sample, not a timing input or typical draw.

Other high chords have weights 11-28. Counts and full round traces remain archived.
